Dear fellow Aussie Native Orchid Lovers & Valued clients. 2007 has been another of those eventful years, to say the least, lots of shows to exhibit our new crosses, & our top line parents. We continue to receive numerous positive comments regarding the quality of our plants & breeding, from our ever-increasing customer base. This confirms to us that we have a growing group of very happy Aussie Native Orchid lovers. Our Website www.duno.com.au Results Tab, show details for 2007. Briefly. Wetlands Spring Show at Sandgate, **OPEN SHOW** chosen as Champion Australian Native Orchid of the Show as well as Champion Australian Native Species Other than Dendrobium our *Dockrillia linguiformis* 'Tumbi' 74 raceme carrying over 2,100 pristine white flowers, this plant was subsequently judged Champion for the Bill Murdoch Trophy 2007, still in the Murdoch arena saw *Dock. striolata* 'Ruffles' AD/AM/ANOS-AOC received another Gold certificate and *Sarc. hartmannii* 'Dopey' a Bronze. Whilst the Hybrid department D. Elegant Heart 'Windy' was Champion Australian Native Hybrid, at the Wetlands, and one of the five Silver Ira Butler Trophies recipients. The Ira Butler Certificate nominations saw *Sarc. Heidi 'Ho! - Albie'*, at Central Coast *Sarc. Show* was the recipient of the inaugural 'Albie Sherwood Memorial Trophy' a very pleasing result for us.

Our Congratulations to Mr. Phil Grech (DUNO customer) in winning the Gold Ira Butler '07 with Den. Jayden 'Goodie'. Whilst on the Ira Butler, a further seven received Silver Trophies or Certificates that are directly attributed to D U N O breeding. The Hermon Slade Hybrid Judging saw our good friend Neville (alias Nifty) Lee received the trophy with his Dock. Tweetas. D U N O also received two of the four certificates.

Our friend from New Jersey, Dick Doran who has had numerous successes with D U N O Dendrobium and Sarcophilus Hybrids/Species advised that Den. Warragul 'Hot Lips' was awarded AM /AOS and Den. Cheeky HCC /AOS at recent Shows on the East Coast of America. Dick grows in a glass House and **in winter has been known to shovel snow from little to lots from the door to get to his plants.** Hasn't been an easy year for the seedlings/ plants with the dramatic weather changes we've experienced during 2007. The lack of rain, then the deluges hasn't been any help but we did manage to do what we did with what was available and were rewarded with those results, which confirms that, quality does count.

We hope that the new parents & excellent crosses we are offering this year, are to your liking, & look forward to your custom. Note that as well divisions of our Dockrillia's, **we've added divisions, all be it not large, of some of our show/ breeding Speciosums, Tropicools, kingianums & 'Colds', in limited quantities, so be early in placing your orders.** Remember don't hesitate to contact us if you have any questions or comments regarding the catalogue, the Website or your plants.

Due to the ever-increasing cost of producing & sending our "Colour" Catalogues to you, this will be our final colour effort. Those of you who have enjoyed looking at the pictures of our parent plants, Trophy winners, first flowered seedlings etc., they will be made available on Website www.duno.com.au, and at Shows. In 2009 the catalogue will be in Black & White and can inform you that we hope to have new & exciting Dockrillia Hybrids for you in 2009 and into 2010, whilst reducing other areas of production. We hope our vivid descriptions will help you decide.

My personal health in 2007 (Brian) has played havoc with continued work in the laboratory, thus we have had no choice but to scale down our hybridizing program & limit flask work. Whilst being a Vietnam veteran, I might say that, age does weary you, especially in the fine motor areas, that guy Arthur Ritus, (both hands), has raised his ugly head. We will endeavor to present to you the best we can produce with our quality awarded parents & others, and hope to maintain our position in the Aussie Native Hybrids & Species field that you have been accustomed, and continue to indulge in that quality. You will note we have no flasks available as such for this apologize, hopefully you will understand. **What flasks that MAY become available will be offered at Events & Shows in which we attend.** Happy Growing in 2008, Phena & Brian

FREIGHT CHARGES - We use Australia Post & can deliver to your door up to 75 seedlings (5 kg) for \$16.50 except Western Australia and Tasmania, where documentation charges have to be added. **Smaller orders are proportionate, the cubic capacity / weight ratio is the overall governing factor.** Larger & overseas orders by quote

CHECK OUT 'OTHER SELECT SPECIES & HYBRIDS' SECTION. FOR THOSE WHO GROW OTHER GENERA,

***** All crosses marked with an (*) asterisk are the year 2008 stock on offer. *****

TROPICOOOL™ *Dendrobium* HYBRIDS

Seedling tubes (50mm) are \$7.00 EACH OR UNLESS OTHERWISE STATED FOR A SPECIFIC CROSS.

THERE ARE PLANTS AVAILABLE IN A VARIETY OF POT SIZES, PRICES AS SHOWN, COMMUNITY POTS, BUT ARE ONLY AVAILABLE WHERE IT IS INDICATED FOR THAT CROSS.

- 1806 D. PEEWEE 'JAYEL' X TIE - DYE 'DAPPLED'
 'Jayel' at last, may be it was the Tie he was wearing that did IT. Dad ever faithful 'Dappled', with its well displayed pale cream/white flat flowers, covered in purple lines & blotches, Mum a real bigibbum shape, the other a kingy shape, colour, take a guess, could be, should be, a cracker. A slow starter. **32% bigibbum SOLD OUT**
- 2183 D. RUSKING 'GENESIS' X spec. curv. 'DAYLIGHT MOON' FCC/AOC
 Flower size 20cent piece, spike upright, colour mid rose pink with white blotching, you could crack eggs on the segments. Ever fertile 'Moon' with 80+ perfectly presented blooms on an arching spike, & given the colour in the background of Rusking, being Lustrous, colour combo's could be incredible. **6% bigibbum SOLD OUT**
- 2232 *D. WARRAGUL - REMAKE i.e., (Tie-Dye 'Genesis' HCC/AOC x Rutherford Sunspot 'Tumbi') +C
 Should be a lot bigger and brighter than the original, as 'Genesis' had a variety of colours and blooms were bigger and brighter, BE QUICK. **6% bigibbum VERY LIMITED 50mm TUBES AVAILABLE SEPTEMBER COMPOT SOLD**
- 2259 D. BRINAWA CHARM 'BIGGEST' X *monophyllum* 'KEN'S YELLOW'
 Goes around 35 - 40mm across, creamy pink base colour, mid rose pink markings, a good head of these beauties that sit nicely. Ken Smith provided the pollen from his rich deep lemon yellow *monophyllum*, which last 2- 3 months on the plant. Should give a very interesting result. Our D. Karani, been in flower on & off for 4 months, which has 50% *monophyllum*. **12½% bigibbum SOLD OUT**
- 2262 *D. BIDDY 'YELLOW BLUSH' X YONDI TINA 'TUMBI'
 Mum a 35mm plus beauty with just a dash of pink, and Yondi Tina, all be it is no 'Goliath' as such, but is still a golden yellow and 17 plus blooms per spike. SHOULD produce a good spray of golden yellows, possibly around the 40mm mark. May be dusting of pink. **6% bigib. VERY LIMITED 50mm TUBES AVAIL. SEPTEMBER COMPOT SOLD**
- 2279 *D. ELEGANT HEART 'BLUE TONGUE' X MAYA'S GOLD 'VIRGIN'
 "B.T" around 95mm mark, a mid yellow beauty that sits up & pokes out its blue tongue at you. Whilst 'Virgin' a cool & has the bonus of the speciosum gene pool, & has solid golden yellow flowers, 20 plus blooms to the spike, & they just sit there, excellent texture & say "Look at me". **12% bigibbum 50mm TUBES ONE ONLY COMPOT @ \$30.00**
- 2314 *D. TIE - DYE - REMAKE i.e., (Brinawa Charm 'Lucky's Toy' AM/AOC x Candice 'Yellow /Purple')
 You keep asking, we keep trying, but with a difference. 'Lucky's Toy' our awarded Brinawa Charm with lots of gorgeous pink, flat as the proverbial 'pan cake' with the kingianum 'Boundry King' influence in the lip. Throw in the contrasting colours of Candice, the mind boggles. **12% bigibbum 50mm TUBES ONE ONLY COMPOTS @ \$30.00**
- 2356 *D. TIE - DYE - REMAKE i.e., (Brinawa Charm 'Dark' x Candice 'Yellow/Purple')
 Likewise this should totally produce a different as well, 'Dark' as the clonal name would indicate is a deep dark red /purple, given the colours of the parents, there is no reason why this should not be a kaleidoscope of colours, as has previous remakes provided. **12% bigibbum LIMITED 50mm TUBES 2 COMPOTS SOLD**
- 2491 D. GOLDBERG 'WHOOPI' X YONDI TINA 'GOLIATH' FCC/AOC
 Mum, had ONE solitary flower as a first flowered seedling at the Campbelltown Conference created so much interest with its 40mm plus golden yellow S's & P's, & bright red lip, just like Whoopi's lipstick. Texture plus. Adrian Grabham gave us flowers of 'Goliath'. No need to expand too much on 'Goliath', Just close our eyes & think of what could come from this mating. Outstanding just like Miss Goldberg herself & fragrance, worth bottling. **3% bigibbum SOLD OUT**
- 2503 *D. WARRAGUL 'VIVID' X CANDICE 'YELLOW/PURPLE'
 'Vivid' a chunky solid Mum, has deep maroon/purple colour, & variations thereto, a dash of white to help highlight the variations. Whilst Dad has turned out to be a real 'Stud Muffin' this year, with its colour being stirred into the melting pot. Expect a compact growing beauty. **3% bigibbum 50mm TUBES 2 COMPOTS SOLD**
- 2515 *D. TIE - DYE 'GENESIS' HCC/AOC X AUSSIE TREAT 'QANTAS' +C
 'Genesis' keeps on producing top quality progeny, this should be no exception. 'Qantas' apart from the obvious, is a medium sized 'kingy' shaped beauty going around 30mm width, colours many. Red/orange, deep red/brown & a splash of white, Wow! Might even take off, 'V1 Rotate'. **6% bigibbum 50mm TUBES 2 COMPOTS SOLD**
- 2640 D. ELEGANT LACE 'VIBRANT' HCC/AOC - MERICLONE, YES A MERICLONE
 PeeWee x Ira's Star, parents, & those who have had the pleasure of seeing it, know what it does, EXCITE. 35 -40mm across, 50 - 55mm high, there is yellow on the S & P's with an orange/red & deeper orange/red in the mix with a contrasting pink/white reflexed lip. Lots of flowers on the spike that do the 'Kath & Kim' - Look at me- Look at me. The picture label tells the story. **25% bigibbum 50mm TUBES @ \$12.00**
- 2643 D. BRINAWA CHARM - REMAKE i.e., (PeeWee 'Keith' x *kingianum* 'Chew Bacca')
 Charm with a difference. Thanks to our friends Rhonda (Office Mgr.) & Ross (Cedarvale Orchids) this remake was possible. Their 'Keith', our PeeWee's a little shy. Considered if I was going to remake it, do it differently, hence our *kingianum* 'Chew Bacca'. Big blooms, great shape, pristine white background with fluorescent pink stripes. Gave Ross the pollen & Hey! Presto! **25% bigibbum 50mm TUBES**

TROPICCOOLS™ AVAILABLE IN 80mm POTS @ \$11.00 EACH.

CROSSES:- .441,669,978,1057,1085,1100,1110,1116,1118,1332,1339,1375,1377,1380,1440,1442,1543,1551,1559,1560,1561,1616,1622,1796,1982,1995,2197,2224,2311. **AVAILABLE IN 100mm POTS \$15.00 EACH:-** 28,247,348,438,635,660,753,924,930,978,1011,1020,1085,1111,1121,1375,1377,1400,1435,1442,1542,1931,1982,1983. **DIVISIONS/PIECES OF SHOW/BREEDER PLANTS in 80mm POTS @ \$20.00:-** Duno Charminite; Candy 'Oman'; Gillieston Surf and @ \$25.00:- Brinawa Charm 'Dark Lip'; Brinawa Charm 'Biggest'; Berry 'ODA' AM/AOS @ \$25.00 Whilst @ \$30.00 also in 80mm POTS

THERE ARE LIMITED NUMBERS AVAILABLE IN SOME OF THE CROSSES/PLANTS LISTED ABOVE

Dendrobium & Dockrillia HYBRIDS **Includes Papua New Guinea**

Seedling tubes (50mm) are \$7.00 EACH UNLESS OTHERWISE STATED FOR A SPECIFIC CROSS. **PLUS THERE ARE PLANTS AVAILABLE IN A VARIETY OF POT SIZES AT PRICES SHOWN, PLUS COMMUNITY POTS & ARE ONLY AVAILABLE WHERE IT'S INDICATED FOR THAT CROSS.**

- 1779 *Dockrillia striolata* 'CORVILLES' i.e., ('Corribah' x 'Neville') X *Dockrillia fuliginosa* 'BLACK PAM'
Dock. 'Corvilles' excellent combinations of colour from parents, base colours of German Mustard, with magenta stripes & lip rolls under slightly. 'Black Pam' produces a mix of colours, intensifying or just adding a raspberry 'spray-can' effect. flowered some, very good. **115mm HANGERS SOLD**
- 1784 *Dockrillia striolata* ALBA - 'PACKERS' X *Dockrillia fuliginosa* 'BLACK PAM'
Our version of the Black & White Minstrel Show. 'Packers' being a soft apple green with a white lip, Flowers fairly flat, stick 'Black Pam' into the equation, resulting in some fantastic colour combinations from the few we've already flowered. May be we should call it Al, as in Jolsen. **VERY LIMITED 115mm HANGERS ONLY @ \$22.00**
- 2019 D. VIVID 'MARILYN' X SUNGLOW 'TUMBI TOO' +C
'Marilyn' as in Monroe, a top shape, 14 plus flowers of soft cream/yellow base colour on a strong spike, with about a 3mm border of Merlot around the sepals & petals perimeter. Mate it with our meaty Sunglow with its habit of colour illumination, & throw in a dose of colchocine, just to add to the meatiness & it should beef it up & be a worthy addition. **ONLY AVAILABLE IN LIMITED NUMBERS IN 80mm @ \$12.00 & 100mm POTS @ \$15.00**
- 2198 *D. JAFFA 'GENESIS' X AUSSIE SPECTRUM 'TUMBI' +C
Mum is a real orange, texture like a 'Navel skin', 30mm plus blooms with a dusting of red/orange at the centre. Combined with 'Spectrum', a good yellow with good shape, & the gene pool having *falcorostrum*, *fleckeri* and *speciosum* in it, could enhance the Jaffa to a deeper colour that would really role you in the aisles. **REMEMBER ????????**
LIMITED 50mm TUBES AVAILABLE SEPTEMBER 2 COMPOTS SOLD
- 2212 *D. CANDICE 'YELLOW /PURPLE' X YONDI TINA 'TUMBI' +C
Our '08 'Stud Muffin', having a go at being Mum. Chose our 'Tina' to play with, good choice. Whilst Candice with its vibrant purple lip & yellow S & P's, 'Tina' having that 40mm plus golden yellow blooms & lots of them, could be a real 'Cracker', the addition of colchocine? **EXCITING!** **But VERY LIMITED 50mm TUBES COMPOT SOLD**
- 2287 *D. YONDI TINA 'TUMBI' X AUSSIE QUEST 'SAMSON' +C
Now 'Tina' is having a dip in the 'Mum' pool. 'Samson' a long serving 'Stud' with its skyrocket habit of 20 plus red/purple & white blooms. Oranges, Lemons, Blood Orange pick a colour, or a fruit & you could get that combo, should be an arching habit, with a bit of C+, it may just take off. **LIMITED 50mm TUBES PLUS 2 COMPOTS @ \$30.00 EACH**
- 2343 D. XDELICATUM i.e.,(*kingianum* 'DARK STAR' - Brilliant x *spec. curv.* 'DAYLIGHT MOON' FCC/AOC)
Legend Ted Gregory is no doubt happy, done another Xdelicatum. 'Dark Star' has a deep burgundy /red, almost solid colour, with finest of white lining around the segments & a more pronounced white line on the lip. Daylight we know & may be able to get a Dark Deli. **VERY LIMITED 50mm TUBES**
- 2492 *Dockrillia* OLIVER JACK - EXACT REMAKE i.e.,(Jiggi 'Best Blue' x *striolata* 'Neville')
Oliver Jack 'Gerard', has had the ribbons over the past two years proving his quality, confirmed it even more, recently receiving HCC/AOC-ANOS, just like our youngest Grandson 'Oliver Jack' bewdiful. Soft olive base colour, with salmon/brown striping & a super curling (like O.J's hair) iridescent purple/blue over pure white lip. Frills to boot. Spectacular sight, **ALL SIZES SOLD OUT**
- 2507 D. VIVORY 'RED BANDS' X YONDI TINA 'GOLIATH' FCC/AOC
New stud! Vivid x Ivory is the parentage, had the Ivory yellow base colour, with a 2-3 mm band of deep red/brown around the Sepals & Petals, Good substance & flower count, a contrasting deep pink concolour lip. 'Goliath' we all know, looking to increase the flower count & raise the bar in the colour stakes. **SOLD OUT**
- 2509 D. RAY'S JAFFA 'BARRED ORANGE' X YONDI TINA 'GOLIATH' FCC/AOC
Ray's Dream x Jaffa, another new Mum, orange /yellow/pink base colour with deep red barring on segments. Heavy on texture, comes from 1563 ('02) cross. We're continuing to look for these orange tones or 'Fruit Salad' colours, with large flowers & lots of them, & using 'Goliath' should achieve that elusive colour Thanks to Adrian Grabham for the pollen **SOLD OUT**
- 2511 D. VICTORIAN STRIPE 'VIOLET LIP' X *spec. spec.* ALEXIA
This larger 'kingy' shape & size beauty, white with a raspberry striping, & violet lip, good presentation. Whilst Dad a better than average type form, also new to the ring with an arching spike of well placed cream /yellow beauties to excite. Worthy of going a few rounds with this one. **50mm TUBES & 80mm POTS @ \$12.00**

- 2514 D. RUTHERFORD SUNSPOT 'SOLID' X KATH KING 'FLARE'
Burgundy/red coloured meaty Mum, a splash of white & typical 'kingy' shape although bigger, good flower habit, hasn't done a lot as a breeder. 'Flare' a cracker, pure white base colour, border of 2 - 3mm mid rose pink on S & P's in a flare pattern, Lip slightly darker rose pink & white markings, white line down centre of lip. **VERY LIMITED 50mm TUBES**
- 2589 *Dockrillia* SYN. aff. *flagellum* X DOCK. TWEETIE 'PIE' **+C**
A very new kid, but oh! what a beauty! Bone white, with a lemon yellow lip, 20 plus blooms on a strong spike, the segments slightly reflexing. Tweetie, golden yellow blooms with a solid blood red lip and a dusting of that towards the centre of the segments. Hoping for a very very interesting flower colour & habit. Given that both Mum & Dad have the genes to flower at least twice in 12 months.
VERY LIMITED 50mm TUBES AVAILABLE SEPTEMBER COMPOTS SOLD
- 2592 *Dockrillia* OLIVER JACK 'BLUE LIP' X DOCK. TWEETIE 'PIE' **+C**
One of the 'Oliver's' we have on Stud duties. "Blue Lip" has lemon yellow sepals & petals with a dusting of the blue/purple towards the centre of the blooms. Throw in Tweetie, as above, colour expectations are endless, we may get the odd tetraploid.
LIMITED 50mm TUBES AVAILABLE SEPTEMBER COMPOTS SOLD
- 2593 *DOCK. OLIVER JACK 'GERARD' HCC/AOC-ANOS' X DOCK. *striolata* 'BRIAN'S RUFFLES' **+C**
The 'Famous' Oliver, with two HCC's, & Herman Slade awards, its blue/purple lip & 'spray can' colouring, mated with one of the best 'Ruffles' x 'Frills' we have. Chunky mustard brown with the purple stripes beauty, an incredible curled lip plus Frills. Should grow & flower compact.
50mm TUBES @ \$11.00 COMPOT SOLD
- 2596 *Dockrillia* (ROSEMARY JUPP X AUSSIE PHIL) X DOCK. AUSTRALIAN GINGER B.F.F.S '07
Mum, a four way split, *striolatum*, *teretifolium*, *mortii* & *fuliginosa* producing a slightly reflexed bloom of olive/yellow with maroon splashes & spots. Whilst the first of our Australian Ginger's, best first flowered seedling at the Gosford Spectacular, English Mustard base colour, maroon stripes, white frilly lip & blue/purple blotches on the frills. Should be a real HOT one?
50mm TUBES @ \$11.00 COMPOT SOLD
- 2616 *Dockrillia* TWEETAS - REMAKE of X1405
i.e., (*striolata* 'RUFFLES' AD-AM/AOC-ANOS x TWEETIE 'HUGE')
X1405 didn't produce much material, given the parents, had to do it again. Show winner, triple awarded and Bill Murdoch Silver recipient in 'Ruffles', & Pie's' brother in 'Huge', which has slightly larger blooms deeper blood red colouring combined with a deeper yellow gold base colour. Expectations are high with this one.
LIMITED 50mm TUBES AVAILABLE SEPTEMBER COMPOTS SOLD
- 2660 *D. AVRIL'S GOLD 'PLENTY' HCC/AOC X spec. *curv.* DAYLIGHT MOON FCC/AOC
We keep trying, our first attempt X1557, didn't really grow that well at all. This time using a better quality Mum & Dad, 'Plenty' awarded HCC after winning a show as First Flowered Seedling, and 'Daylight' devastatingly beautiful. You may have to wait a little longer for this to flower, but Hey! Should be an absolute Gob Stopper.
SO SLOW GETTING GOING - LIMITED 50mm TUBES AVAILABLE SEPTEMBER @ \$11.00 COMPOTS SOLD
- 2677 *D. TANGELOATS 'RAYENTHEL' i.e., {(Jamipet x Tweed) whilst (Jamie Upton x Peter) is Jamipet.} X AUSSIE VICTORY 'SUPERNATURAL'
Mum a bright coloured tangerine, almost concolour S & P's, lip ivory, red/orange splashing, plant borrowed from a friend, Dad, a very well known breeder, texture like cardboard, intense marbling of deep rusty burgundy over a soft yellow base colour, lip darker rusty burgundy on a white background, Champion at Gosford Spectacular '07. Cross may follow in 'Super's' steps.
50mm TUBES @ \$10.00 COMPOTS SOLD
- Dendrobium* and *Dockrillia* HYBRIDS AVAILABLE in 80mm POTS @ \$11.00 EACH CROSSES:**
1004 @ \$15.00, 1009, 1363, 1394, 1438, 1551, 1563, 1783, 1917, 1929, 1954, 1980, 2328 PLUS
AVAILABLE IN 100mm POTS @ \$15.00 EACH: -646, 663, 793, 804, 997 @ \$19.00, 1006, 1193, 1202, 1394, 1423, 1783, 1980 PLUS; - (KATH KING X SIB) DIVISIONS OF SHOW/BREEDER PLANTS; -
Den ELLA V. LEANEY 80mm POT @ \$15.00; Candice Minstrel @ \$20.00; (*mooreii* x *kingianum* Alba); Whilst @ \$25.00 Zoom 'Topp's'
**** VERY LIMITED**
50mm TUBES X 1606 ORIGINAL DOCK. TWEETAS @ \$15.00 SOLD OUT ** ONLY 2 X 80mm @ \$25.00 EACH

Dockrillia DIVISIONS/PIECES OF QUALITY PARENT SPECIES & HYBRIDS

TUBES (50mm) are \$11.00 EACH OR UNLESS OTHERWISE STATED FOR A SPECIFIC CROSS

N.B. WE HAVE PLACED THE NUMBER OF DIVISIONS AVAILABLE FOR EACH CATALOGUE NUMBER

- 9800 *Dockrillia striolata* 'RED BACK' - **TWO pieces** of the Original IN 50mm TUBES A good grower and produces **SOLD OUT** atypical *striolata* blooms with stripes on the facing segments as well as stripes on the back with white lip.
- 9801 *Dockrillia striolata* 'NEVILLE' - **TWO pieces** of Original 50mm TUBES **SOLD OUT**, 2 x 80mm POTS @ \$15.00, AND 1 X 100mm @ \$20.00 **SOLD OUT** good grower, produces atypical *striolata* blooms with stripes on the facing segments as well as stripes on the back with white lip.
- 9802 *Dockrillia striolata* *chrysantha* a.k.a Tasmanian Gold - **THREE pieces** of the Original IN 50mm TUBES PLUS **SOLD OUT** Produces masses of golden coloured blooms on upright spikes, we grow ours in a pot & does well.
- 9803 *Dockrillia striolata* Alba 'PACKERS' - **TWO pieces** of Original IN 50mm TUBES PLUS 2 X 80mm POTS @ \$15.00 & 1 X 100mm @ \$20.00 **BOTH SOLD OUT** 'Packers' not white, a soft granny smith apple green with white lip, a pendulous grower, & before too long you'll have what looks like cousin 'IT' from TV Show 'The Munsters', " You Rang".

- 9804 *Dockrillia* DAINTY CASCADE - **TWO ONLY** of the Original Natural Hybrid IN 50mm TUBES PLUS 1 x 80mm POTS @ \$15.00 EACH **SOLD OUT** Natural hybrid *pugioniforme* & *mortii*, dark granny smith green blooms with the dagger orchid lip a feature, easy to grow.
- 9807 *Dockrillia striolata* 'RUFFLES' AD-AM/AOC - **THREE pieces** Original IN 50mm TUBES @ \$15.00 **ALL SOLD OUT** 5 X 80mm POTS @ \$20.00 EACH & awarded earlier in its life, PLUS Bill Murdoch Silver '04,'05 &'08 certainly a good doer and definite show quality.
- 9808 *Dockrillia striolata* 'FRILLS' - **TWO pieces** of the Original IN 50mm TUBES 'Ruffles' brother, slight difference in the lip ruffling, colour similar, markings not quite as definitive. Not quite as large a flower, a good grower.
- 9809 *Dockrillia striolata* 'VICTORIAN GOLD' - **ONE ONLY** piece of the Original IN 50mm TUBES Slight variation on a theme, but there is one, when you compare the Tasmanian *chrysantha* with it, buy both and compare for your self.
- 9810 *Dockrillia striolata* 'TUMBI' - **THREE pieces** of the Original IN 50mm TUBES. **SOLD OUT** Similar to 'Frills', good base colour with strong maroon striping and curling lip. Also a good doer.
- 9813 *Dockrillia striolata* 'CORVILLES' i.e., (Corribah x Neville) 'TUMBI' - **ONE ONLY** pieces of Original IN 50 mm TUBES PLUS 1 X 80mm POT @ \$15.00 Another of our quality line bred *Dockrillias* to add to your collection, hang it up and watch it grow, we hang all ours and they are in pots, you get the best look.
- 9815 *Dockrillia* OLIVER JACK 'GERARD' HCC/AOC - ANOS - **FIVE ONLY** pieces of the Original IN 50mm TUBES @ \$25.00 EACH Be quick, check out X 2492 for details. You know IT, don't blow IT, BE EARLY. **ALL SOLD OUT**
- 9817 *Dockrillia* JIGGI 'LEMON BLUE SPRAY' - **TWO ONLY** Pieces of the Original IN 50mm POTS @ \$25.00 One of the family of 'Jiggi's', all have their own charm, and this is no exception. A definite Lemon base colour with that 'spray-can' effect in red/maroon, great. **SOLD OUT**
- 9826 *Dockrillia striolata* 'BRIAN'S RUFFLES' - **THREE pieces** of the Original IN 50mm TUBES. This is a 'Frills' with 'Ruffles' thrown into the melting pot and it's a beauty. Mucho reflexo (a lot of reflexing) on the lip, lots of 'frills', as well as 'thrills' when this flowers, worth having. **SOLD OUT**
- 9831 *Dockrillia striolata* 'DEEBEE' - **ONE ONLY** piece of the Original IN 50mm TUBES One purchased from the Darryl Bramley collection, haven't seen it flower as yet, but I gather it is one of the Wattagan forms.
- 9835 *Dockrillia* GREY GHOST 'TUMBI TOO' - **FIVE Pieces** of Original - CHAMPION NEWCASTLE 2004 Brother of Ira Butler Gold winner for 2006 (9819) , very similar in colour & presentation 50mm TUBES @ \$15.00 **ALL SOLD OUT**
- 9836 *Dockrillia striolata* 'PHENA'S RUFFLES' - **THREE Pieces** of the Original - CHAMPION WETLANDS 2006 50mm TUBES @ \$15.00 & 2 X 80mm @ \$19.00 One of the family of the 'Ruffles' x 'Frills' cross-done by Neil, way back. Deeper colouration than 'Ruffles' AD-AM/AOC, same outstanding presentation. **ALL SOLD OUT**
- 9837 *Dockrillia* OLIVER JACK 'OLIVIER' - **ONE ONLY** Piece of the Original 50mm TUBE @ \$25.00 - CHAMP WETLANDS 2007. Another 'Oliver', this has a completely different growth habit than 'Gerard' HCC/AOC-ANOS, taking more of the Dock. *beckleri* genes. Flower large Olive green/brown base colour with a shine, slight maroon striping on S & P's, the lip, outstanding, parchment white with blue/purple blotching, those wonderful 'Frills', **Received a Hermon G Slade Certificate '08 for its effort. ALL SOLD OUT**
- 9838 *Dockrillia striolata* 'FRIFFLES' i.e., (Frills x Ruffles AD/AM) - **TWO Pieces** of the Original 50mm TUBES & 3 X 80mm Pots @ \$15.00. This time it's Frills playing Mum, and producing outstanding children. They are similar but not the same as the 'Brian' & 'Phena' Ruffles. Nerveless worthy of adding to your collection **ALL SOLD OUT**
- 9839 *Dockrillia striolata* 'FRIFFLES TUMBI' - **THREE Pieces** of the Original - 1st in CLASS SAPPHIRE COAST 2007 Another of these outstanding line bred *Dockrillias*, similar to X9838. This plants flowering was good enough to receive the judges ribbon at the CLASS SAPPHIRE COAST 2007 Show in Bega, Thank you to John Stubbs for hospitality. 50mm TUBES @ \$11.00, 1 x 80mm @ \$15.00 **ALL SOLD OUT**
- 9844 *Dockrillia* DAINTY CASCADES - **THREE Pieces** of Original - (Man made Hybrid) 50mm TUBES @ \$11.00, 1 X 80mm \$15.00 A MAN MADE hybrid of *pugioniforme* & *mortii*, dark granny smith green blooms with the dagger orchid lip a feature, easy to grow. **ALL SOLD OUT**
- DIVISIONS OF SHOW & BREEDERS:-** IN 80mm 9814, 2 X 9829 @ \$25.00 (Rosemary Jupp x XGrimesii) x 2 @ \$25.00 EACH **ALL SOLD OUT** **** VERY LIMITED**
50mm TUBES X 1606 ORIGINAL DOCK. TWEETAS @ \$15.00 **SOLD OUT **** **ONLY 2 X 80mm @ \$25.00 EACH**

SPECIES *Dendrobium* & *Dockrillia* BREEDING *Includes Papua New Guinea*

Seedling tubes (50mm) are \$7.00 EACH OR UNLESS OTHERWISE STATED FOR A SPECIFIC CROSS. PLANTS ARE AVAILABLE IN VARYING SIZES AT PRICES SHOWN, PLUS COMMUNITY POTS, BUT ARE ONLY AVAILABLE WHERE INDICATED FOR THAT CROSS.

- 1941 D. spec. curv. 'MISTY MOUNTAIN' HCC/ANOS X spec. curv. 'BLEW MOON'
New Dad, typical curvicaule, great flower presentation, colour and texture plus lots & lots of blooms. Put the Brother/Sister (twin) of 'The Moon' onto the dance floor with it, & you are almost certain to get a ten out of ten for this routine, don't miss this one. **ONLY AVAILABLE IN 80mm POTS @ \$12.00 PLUS 100mm @ \$16.00**

- 2202 *D. kingianum* 'WHITE ICE' X *kingianum* 'CREAM '69'
Hope you like 'whites'? Could produce pure whites & then again with '69' in play, anything can happen, colour wise. Anyway 'White Ice' is big, chunky & sits up there, with just a hint of lemon yellow in the throat, it's a beauty. '69' soft cream that as it matures has a soft pink tinge, texture plus as well. **50mm TUBES PLUS COMPOT ALL SOLD OUT**
- 2210 **D. spec. spec.* 'KATES SPECIAL' X *spec. curv.* 'DAYLIGHT MOON' FCC/AOC-ANOS
Redid one of our early crosses X1172, as 'Kate' is one of the best type forms going around, with its cream/ yellow 40mm blooms, great texture & shape, plus an almost perfect spike habit. Stick the 'Moon' into the equation; result should be a show bench special. **50mm TUBES PLUS 2 COMPOTS @ \$30.00 EACH**
- 2253 **D. spec. curv.* 'MISTY MOUNTAIN' HCC/AOC X SELF
One of the relatively new kids. Billy Dobson took out one of the Warringah Group Shows with this & it received a HCC. Thought it would be good to self. Excellent flower presentation, texture & yellow /cream colour and shape. Possibly produce even better than the original. **50mm TUBES PLUS 2 COMPOTS @ \$30.00 EACH**
- 2291 **D. spec. hillii* ALBA X *spec. curv.* 'DAYLIGHT MOON' FCC/AOC-ANOS
Seeing is believing. We thought that how can we increase the flower count on 'The Moon' and give a *speciosum* 'hillii' a flower with more substance and size. This is the equation we came up with, which should do exactly that. Shouldn't take 15 years to flower, they are growing well **50mm TUBES PLUS 3 COMPOTS @ \$30.00 EACH**
- 2298 *D. kingianum* 'WHITE ICE' X *kingianum* 'BROWN'S WHITE'
As above with 'White Ice', & I think this one of the few white line breeding that has been done. Now 'Brown's White', from our good friend Albert who is looking after the 'kingies' in the big bush house in the sky, is virtually pure white, not overly large in the flower size, but looking to have even purer white 'kingies'. **4 ONLY 50mm TUBES**
- 2463 *D. spec. curv.* 'BLEW MOON' X SELF
'Blew' without question one of the best curvicaule's, from the same area as 'The Moon' FCC/AOC was collected. When they both flower at their best it is difficult to judge, which is better, trouble is, they don't seem to want to do it at the same time. Could be brothers/sisters. Worth serious consideration **50mm TUBES & 80mm POTS @ \$12.00 EACH**
- 2465 **D. kingianum* 'BLACK ALLEY' X *kingianum* 'CHEW BACCA'
Could be similar to X2190, ('05 Cat.) only that 'Black Alley' is a slightly bigger flower, and deeper in colour. Throw in 'Chewy', (not from Star Wars) with its fantastic texture and shape, and excellent spike habit, and we could have an exceptional *kingianum*, with exciting new colours and combo's. **50mm TUBES PLUS 3 COMPOTS @ \$30.00 EACH**
- 2494 **D. spec.* HERBSTAR 'TRIFID'S TWIN' X *spec. curv.* 'DAYLIGHT MOON' FCC/AOC-ANOS
'The Twin' as it implies is related to 'Trifid', won Champion at the Wetlands Show '06. Same unbelievable texture, flower presentation & clear cream yellow lip. Add 'The Moon' to the pot, give it a stir, & we hope to get something right out of this WORLD, almost a sure thing. **50mm TUBES PLUS 2 COMPOTS @ \$30.00 EACH**
- 2501 *D. spec. pedunculatum* (compactum) X *spec. spec.* 'AMY'
Something a little different, a compactum (a.k.a. *pedunculatum*), the dwarf version, still upright spikes of yellow/gold flowers, whilst Dad is one of the better type forms in the stable. Should improve flower size, count and texture, growing well. **50mm TUBES & 80mm POTS @ \$12.00 EACH**
- 2502 **D. spec. blackdownense* 'GOLD' X *spec.* HERBSTAR 'TRIFIDS TWIN'
Here is potentially a great mix that should produce an excellent result. Mum, a long arching spike of golden yellow beauties, this flowers earlier than the rest. Whilst Dad as per X2494 will certainly add some real grunt to the flower, and hopefully Mum's colour will prevail, **50mm TUBES PLUS 2 COMPOTS @ \$30.00 EACH**
- 2510 *D. spec. blackdownense* 'GOLD' X *spec. grandiflorum* MT. LARCOM GOLD
This beauty has a long long spike of golden beauties, good shape/ presentation, 6 spikes last year. Mt. Larcom, large golden yellow blooms as they mature go to a sort of orange/gold. Should bring down flowering wait time, as capricornicum earlier flowerer. result should be a Cracker. **LIMITED 50mm TUBES & 80mm POTS @ \$12.00**
- 9600 **D. polysema v pallidum* X SELF
P.N.G. species, grows cool/intermediate, evidently RHS gave it a syn. with *D. macrophyllum*. IT IS NOT. This a select form and produces 20 to 25 long lasting blooms on an erect stem, light cream with purple veins & heavy spotting on lip & segments, with a very hairy characteristic on the back of the S & P's. **LIMITED 80mm POTS ONLY @ \$15.00 EACH**

Dendrobium SPECIES AVAILABLE 80mm @ \$12.00 unless stated OTHERWISE. CROSSES:650,
1575,1765,1776,1909,1941,1944,1950,1963,2149 Plus LIMITED 80mm POTS OF, *kingianum* . ALBA, POOZON,
HELEN, ICED VO-VO'S SISTER AVAILABLE @ \$20.00

******* Dendrobium speciosum DIVISIONS INDIVIDUALLY PRICED. *******

SPEC. - WINDERMERE HCC/ 4 SMALL CANES \$80.00, PURITY 5 CANES \$90.00, DREAMTIME X SELF- 4 CANES @ \$80.00, DOROTHY 3 SMALL CANES \$60.00, WINDERMERE x SELF X WINDERMERE x SELF- 4 CANES \$80.00, GEORGES RIVER SPECIAL X SELF- 3+ CANES \$40.00; HILLII 3+ CANES \$ 40.00;
INTERVARIETAL- curv. DAYLIGHT MOON FCC/ x spec. WATELOW 2 SMALL CANES \$45.00, ped. HERBERTON X curv. NORTH STAR 4 CANES \$60.00.

SARCANTHINAE SPECIES

Seedling TUBES (50mm) are \$7.00 EACH OR UNLESS OTHERWISE STATED FOR A SPECIFIC CROSS, PLUS, PLANTS ARE AVAILABLE IN 80mm & 100mm pots AT THE PRICES SHOWN, PLUS COMPOTS, BUT ARE ONLY AVAILABLE WHERE INDICATED FOR THAT CROSS.

- 1711 *Sarc. hartmannii* 'BEE ESS' HCC/AOC X *hartmannii* 'BRIAN'S CHOICE'
This screams out 'quality', Without question two of the best show/breeders we have in the stable. 'Bee Ess' and 'Brian's Choice' (Snow White x Red Snow) both have done it for us at the show bench time and time again. They are growing really well and have the indication that the 'Bee Ess' textural influence is showing through.
Not a lot available, they are **VERY VERY LIMITED in 50mm TUBES @ \$11.00 EACH** **SOLD OUT**
- 2065 *Sarc. fitzgeraldii* 'RED ON RED' X *fitzgeraldii* 'CRISPUM'
We've been successful in crossing arguably two of the best red coloured *fitzgeraldii*'s going around. Hopefully, & we say hopefully, that the red colour will continue or may be even richer, if possible both have good shape & flower & presentation, 'Red' has a Lorraine Fagg 'Red' in it. **50mm TUBES & 80mm POTS @ \$12.00 EACH**
- 2380 **Sarc. hartmannii* BEE ESS' HCC/AOC X *hartmannii* 'TUMBI' + C
The famous or is it infamous 'Bee Ess', texture like cardboard, shape virtually perfect. This should give a result not unlike the X1711, as 'Tumbi' is a perfect shape and great flower count. Note, that we decided insert colchicine into the equation; you could probably crack eggs on the leaves, as a result. Looking forward to see this flower.
50mm TUBES @ \$11.00 EACH PLUS 3 COMPOTS @ \$35.00 EACH

SARCANTHINAE SPECIES IN 80mm POTS @ \$11.00;- 395,717 ,739,859,1250,1260 , 1272, Alba X Delight, Kennies White

SARCANTHINAE SPECIES IN 100mm POTS @ \$15.00;-,718,*hartmannii* Aequalis,B.K. x Self, Valdo x Yellow Snow, B.K. 20c x Self, Happy, B.K. Alba X Self, B.K. X Diamond, Alba X Delight & B.K. Division

SARCANTHINAE HYBRIDS

Seedling TUBES (50mm) are \$7.00 EACH OR UNLESS OTHERWISE STATED FOR A SPECIFIC CROSS, PLUS, PLANTS ARE AVAILABLE IN 80mm & 100mm pots AT THE PRICES SHOWN, PLUS COMPOTS BUT ARE ONLY AVAILABLE WHERE INDICATED FOR THAT CROSS.

- 1869 S. DUNO NICKY'S TWIN 'ALMOST NICKY' X *hartmannii* 'BEE ESS' HCC/AOC
As the 'Twin's clonal variety would allude, that it's almost like 'Nicky', pure RED. Good shape, presentation & flower count, 'Bee Ess' HCC/AOC has, we hope finally come to maturity in the breeding department, both as a Mum & Dad. It has a number of interesting crosses in the system & this is JUST one of them. Red & White, Yellow & Red, who knows, I know who knows, but he won't tell me. **VERY LIMITED 50mm TUBES**
- 2054 S. GEORGE COLTHUP 'THE EYE' X *fitzgeraldii* 'RED ON RED'
Not the easiest to play with 'The Eye', as is 'George' in general. Fifty-cent piece sized, flat as, & with red/maroon 'Eye' that says 'Look at me', 'Look at me'. 'DAD' as it suggests is RED, solid, dusty red. That box of chocolates again, where you never know what you are going to get. **LIMITED 50mm TUBES**
- 2055 S. FITZHART - REMAKE, with a Twist i.e.,(S. *fitzgeraldii* 'True Albie' x *hartmannii* 'Alba')
A pure white, line bred *fitzgeraldii* of good shape, third generation, We're told. Then put the pure white round-segmented *hartmannii* into stud duties. Hoping for pure white progeny, & lots of blooms with good shape. Chubby could sing its praises like he did last summer, remember? **LIMITED 50mm TUBES & 80mm POTS @ \$12.00 EACH**
- 2361 S. VELVET - EXACT REMAKE of X773 i.e.,(S. NICKY 'TOO' x RIVERDENE HOLLY) + C
You asked for it, now you've got it. I don't think I have to expand too much on what we are going to get here, as the colour spectrum we have seen from the original cross of Neil's has been incredible. I've benched 6 of the original cross & all have similar colour bases, but their combination has been so variable. We also added colchicine to the equation, and they are growing extremely well. Enjoy the journey, we will. **50mm TUBES**
- 2392 S. DAWN HART 'GENESIS' X *hartmannii* 'YELLOW SNOW' AD/
Named after a dear friend in Dawn Hart (Aussie Dawn x *hartmannii*), & is as colourful as she was, now giving swimming lessons to those in the big pool in the sky. Soft cream yellow base colour with a myriad of magenta/pink spots over 2/3 of the segments, good shape & flower count, about a ten-cent piece size. Dad 'The Snow' should add a new dimension in the colour result, & we are looking forward to that, aren't we Rick? **50mm TUBES**
- 2405 *S. ARMSTRONG 'FUNNY FACE' X *hartmannii* 'SEVEN'
Another of the new kids. 'Funny Face', a well rounded beauty with a ivory white base colour having pink blotching on the S & P's with rings around the centre of the blooms being orange/red, and a yellow lip. 'Seven' (Reefer x Red Snow) has excellent shape, good flower count & an intense red centre. Result, an even funnier face, & more flowers on the spike. Plus Red Snow can do wonders with the original colours. Varietal name given to it as it has colorations /patterns similar to our Goleta (California) friends cat, also named 'Funny Face' **50mm TUBES PLUS ONE COMPOT @ \$30.00**
- 2447 *S. RIVERDENE 'HOLLY' - TUMBI X VELVET 'OH! SO RED'
'Holly' is back with its cream/yellow S & P's & vibrant red centre, arching spike & good flower count. Whilst 'Oh So Red', as the name implies is a solid velvety red. Given that Velvet's usually flower later than other Sarc's, so by putting these two together, we may get one that will be in flower for much longer than both parents, worthwhile adding to your collection. **50mm TUBES PLUS ONE COMPOT @ \$30.00**

- 2451 *S. MARINA HARRIOTT i.e.,(S. *ceciliae* 'DELVENE' X VELVET 'OH! SO RED')
'Delvene' a better than average solid lipstick pink *ceciliae*, good flower count and spike. Dad, as per X2447 flowers flat as the proverbial pancake & the velvety red. Should produce a very pleasing 'novelty' Sarcophilus, colour, your guess would be as good as mine, enjoy. **50mm TUBES PLUS ONE COMPOT @ \$30.00**
- 2468 S. VELVET - EXACT REMAKE of X 828 i.e.,(RIVERDENE HOLLY x NICKY #1) + C
Very little difference between Nicky '# 1' and 'Too', and in the colour range resulting from the original 828 cross and the 773 that have flowered, you really can't tell 'who's who in the Zoo', so to speak. Your choice, but given I shot them with the colchicine as well. They are both growing well, try both, why not? One thing, you won't have to put these in a cage, just enjoy **50mm TUBES PLUS 80mm POTS @ \$16.00 EACH WITH THE TWO COMPOTS @ \$30.00 SOLD**
- 2530 S. PINK BLOSSOM X *hartmannii* 'BRIAN'S CHOICE'
Mum, courtesy of Stan Davis, thank you. Lovely mid pink round-segmented bloom with raspberry dots over centre half of segments, & plenty of them. Add our stud muffin, *hartmannii* a fertile Daddy, we could hope for something like a Bobby Dazzler, that we can breed with, as 'Bobby' is a little on the shy side. **SOLD**
- 2535 *S. RACHEAL - REMAKE + C i.e.,(*hartmannii* 'YELLOW SNOW' AD-HCC /ANOS X HEIDI 'ALBERT BROWN' - Gold Ira Butler Trophy Winner '04)
On paper this has the potential to be an absolute cracker. Heidi, S & P's bone white base colour with mid pink stripes and blotching over 90% of the segments, with a solid deep pink/maroon ring around the centre. 15 plus blooms to the spike. Dad, has in the past shown the ability to enhance its partners colours to orange tones. Add the colchicine to the equation, outstanding prospect. **50mm TUBES PLUS ONE COMPOT @ \$30.00**
- 2552 S. MELBA - REMAKE i.e.,(S. *falcatus* 'GOLDEN SHOULDER' x *hartmannii* 'YELLOW SNOW')
Another Melba! BUT this could produce Melba's with a yellow to yellow/orange centre, given that the colour of the *falcatus* in having more yellow on the labellum, a mountainous form, as with 2388. In breeding Dad has the ability to create different hues. Hopefully this is not an exception. **VERY LIMITED 50mm TUBES & 80mm POTS SOLD**
- 2554 *S. CHARLOTTE - REMAKE i.e.,(MARION 'GINGER' x FITZHART 'ONE BILLY')
Neville Roper did the original, & been some excellent results. Using 'Ginger' which is a mid yellow with a ginger /brown centre & *olivaceous* shape. Dad, one of the bigger Fitzhart's, white with a huge deep red solid ring around the centre of the blooms. Expect a colourful result. Like all hybrids 'It's like a box of chocolate's, you never know what you a going to get', thank you Forrest Gump. **50mm TUBES COMPOTS SOLD**

SARCANTHINAE HYBRIDS IN 80mm POTS @ \$11.00 ; -836,941,951,1281,1474,1499, Bessie, Divisions @ \$15.00 Bon - Bon, & Colonial Rose 'Orange Lady'.

In 120mm POTS @ \$20.00 :- Lois & Highton Magic -- SOME CROSSES ARE LIMITED.

OTHER SELECT SPECIES AND HYBRIDS

Available in 50mm TUBES @ \$10.00 UNLESS OTHERWISE STATED PLUS, PLANTS ARE AVAILABLE IN LARGER POTS AT THE PRICES SHOWN BUT THEY ARE ONLY AVAILABLE WHERE IT IS INDICATED FOR THAT CROSS.

- 1867 *trichopilia galleotiana* X SELF
One of the least common of *trichopilia* available, this hails from Mexico, has a large 'trumpet' like bloom (around 60mm long) in butter yellow, with a darker yellow colouring down the throat of the labellum. We grow the parent plant in our covered bush house. Didn't have a lot of luck with the first batch, the second we've put into spag moss, & ARE looking good. Be early not a lot available. **LIMITED 50mm TUBES @ \$15.00 COMPOT SOLD**
- 2559 *L.c. NOVISSIMA i.e., (*gaskelliana* x *anceps*) x *Laelia anceps* 'VIETCHIANA 'FORDYCE BLUE'
An interesting hybrid, which should grow 'cold' given the parental pool. As for colour, well we have browns, blues, white's and a dash of yellow, on a spike clear of the foliage. **50mm TUBES COMPOT SOLD**
- 2560 Blc. VOLCANO PRINCE - REMAKE i.e.,(L.c. Trick or Treat x Blc Love Sound 'Fortissimo' HCC/AOS)
Extremely orange 'Trick' great texture, crossed with 'Love' has seven bright yellow flowers nicely displayed on one inflorescence; lip/throat darker yellow/pale red blush on distal margin; substance good; texture crystalline. Ask our friend Ruben in Long Beach who did the cross. **50mm TUBES & LIMITED 80mm POTS @ \$16.00 EACH**
- 2571 *C. *massiae* SEMI ALBA 'RUBEN' X *massiae* SEMI ALBA 'AURORA'
Two different Semi Alba forms of Venezuelan species. Producing large blooms ranging in size from 14 to 17 cms. Also has a crystalline influence in the segments & unique fragrance; this cross has potential to produce some excellent C. *massiae*, with a very different colouring. **50mm TUBES @ \$10.00 PLUS LIMITED 80mm POTS @ \$16.00 EACH**
- 2644 *C. *trianaei* 'ARANKE GERMANSE' FCC/AOS X *trianaei* 'A.C. BURRAGE' AM/AOS
All you species persons, two very select forms of easy to grow *Cattleya unifoliata* species. Would be the longest lasting of the *Cattleya* species when in flower, one of the hardest & are growing well. What the combo of these two will bring is anybody's guess, a class line bred species. **50mm TUBES @ \$15.00 COMPOTS SOLD**

OTHER SELECT SPECIES AND HYBRIDS NOT MENTIONED ABOVE.

AVAILABLE IN 80mm @ \$19.00 ; - 2083, 2517 2560, 2567, 9401 Miltonia spectabilis v. Mooreana 'KARL' 100mm & 125mm @ \$15.00 & 19.00, 9402 Milt. GUANABARA 80mm, 100mm & 125mm @ \$12.00, \$15.00 & \$19.00, 9406 XBLUNTII 125mm & 140mm @ \$15.00 & \$19.00; DENDROCHILLUM WENZELLII 100mm @ \$15.00

THERE ARE LIMITED NUMBERS OF ALL OF THESE.

NOTES

WE ACCEPT VISA, MASTERCARD, CHEQUES (CHECKS), MONEY ORDERS & EVEN CASH

DEAR CUSTOMER

We have several types of plants on offer & would like to tell you a little about them. Our culture notes are offered as a guide only, it works for us, so please be careful to try our ideas on an unimportant plant first and see if it suits your conditions!

Our **Tropicool's™** have a tropical species in their background, in most cases *Den. bigibbum*, a plant which is used behind many of the worlds cut flower orchids. It lasts longer than most *Dendrobium* species & produces such flamboyant flowers.

As *Den. bigibbum* flowers in autumn, & most other commonly used species in our hybrids flower in spring. **Tropicool's™** usually flower any time between May & September, with our peak at the end of July, early August. As a result, this type of hybrid has filled in the off-season with wonderful flowers, & will tolerate as much cold as most other native Dendrobiums. The trick is to keep them DRY in cold weather. The higher the *bigibbum* content the colder the DRIER! In cold weather, when the bulbs start to wrinkle give them a good drink in the morning, avoiding the coldest days. If the bulbs are not wrinkling, they are not thirsty! Pot up into 80mm pots as soon as they are big enough. **DO NOT over pot!** Air movement is important, we hang our best (large plants, not seedlings). If you follow these guidelines you should grow them as well as your other natives.

Other Dendrobiums and Sarcochilus;- As with the **Tropicool's™** above, these should not be over watered. If you watch the bulbs you will see they generally wrinkle before the **Tropicool's™** so can tolerate more water, but don't over do it. Be guided by the plant bulbs! **Sarcochilus** on the other hand don't have pseudo bulbs, so they have to be treated a little differently, in that in summer you can't afford to let them dry out as they don't have any water reserves, other than in their leaves. Water when they need it. Light doesn't have to be as bright as for Dendrobiums to grow them successfully, feed and treat them the same as ordinary Dendrobiums, except for the watering. In winter cut back as you do with **Tropicools™** for watering.

General;- Avoid high Nitrogen fertiliser like the plague - it leads to soft, fungi prone growth and few flowers.

We use a high potassium food with an N: P: K of **8:5:25**, at a rate of one gram per litre fortnightly, all year round. We also use Aminogrow and a product called Harvest to give the plants a variety of goodies to get them growing/flowering well. To get optimum results when using Pine bark mixes, it is a good idea to give your plants a drink of lime-water in early autumn and again in early spring. We use micro-fine lime (F70 Superfine Limestone) at a rate of one gram per litre. We also use and recommend Orchid Care Services treated pine bark. For seedlings, 6 parts fine, two medium, and 1 part 10mm river pebbles. We have found that using an Orchid food with an N: P: K of **12.12.20** gives seedlings that little extra to get up & go. Dendrobiums and Sarcochilus up to 140mm pots, 6 parts medium, two parts fine and one part 10mm river pebbles, speciosum up to 140 - 180mm pots 6 parts medium, two parts coarse and one part 20mm river pebbles. For larger speciosum 6 parts coarse, two parts medium and one of 20mm river pebbles. Before potting (**using dry mix**) sieve the mix to remove all 'fines', put the fines on the garden or into your Cymbidium mix, if you grow them. When deflasking we add a capful of Envy (Stress-guard) to the water, soak the seedlings for 15-20 minutes in this solution, shake all the agar off the roots, in the water, then lay them on some damp newspaper. After potting we sprinkle a mix of sel-grit and canunda shell (50/50) over each pot; this is for a lime and calcium supplement. Now totally drench the plant to get rid of any missed 'fines', and thoroughly soak the bark to encourage the roots to grow into a nice new moist environment. This process could take up to 15 minutes, depending on the quantity of plants. **Do not** let the bark dry out in the early stages of the plants' potting into its new mix. **Morning sun is also very essential ingredient in maintaining a good healthy growing / flowering environment.**

We suggest that where we have made note of the fact a plant should be given a rest or grown in an intermediate house, that is where we grow them, or how we grow them, it is your final choice.

The fertiliser, Amino K Aminogrow sel-grit/canunda shell mix, lime & HOZON™ line feeders, and their repair kits, plus DRAMM™ Watering Wands & the fine rainmaking head as well as the small head to work with the HOZON™ are available from the nursery and we have a range of ancillary products, some brand new to help you make life a little easier.

***** PLUS we have our AUSSIE NATIVE STARTER KIT. *** STILL JUST \$27.50**

THE Ideal gift for THE person who has everything. The kit includes 3 x plants in 50mm tubes, (@ \$7.00 each). You may wish to include a more expensive tube, we just add the difference between it & the \$7.00 onto the base price, 3 x 80mm pots, fertiliser, enough bark mix to pot the three plants into & all-important INSTRUCTIONS.

We hope that this is of some help, & look forward to hearing from you, should we be able to assist further. In closing, congratulations to all those who won prizes with our plants last year, & if you win a show, or an award this year, please don't forget to enter the plant into the Ira Butler or Bill Murdock competitions, and for the P.N.G. species & hybrids the Hermon G Slade Trophies. You, your efforts, & your plant deserve nothing less. You're Society Secretary or Show Marshall should have entry forms.

Best wishes,
Phena & Brian

P.S. BIG THANK YOU to the following, for without them we wouldn't be able to do what we do Venessa & David our Webmasters, Bill Dobson our Computer Brains Trust, & Mr. Kruger, for their ongoing assistance & advice & to Phena for being Phena & doing her bit an Extra BIG thank you.
